

English 9d

Aufgabe für die Woche vom 04.05.-08.05.

Learning languages at home can be really fun. There are so many ways to immerse yourself (eintauchen) in the language. The more English you hear and read in your free time the better! It doesn't really matter what it is you do, as long as you expose yourself to the language as much as you can and have fun doing it. That's the way you learn the best. Here are some examples:

- watching films/series in English
- putting English subtitles on when you watch films/series
- listening to English music and trying to understand the lyrics
- reading English books/magazines/websites/...
- watching English language TV channels
- watching English language YouTube channels
- following English speaking celebrities on Twitter/Instagram/...
- talking to English speaking friends/relatives
- playing online games and communicating in English
- and more...

Your task:

- a) Write a few sentences about how you expose yourself to English outside of school.
or
- b) Write a few sentences about how you can expose yourself to English outside of school. If you do not already do one of the above, set a goal for yourself and write about what you will do in future.

a) and b): Write about:

- ✓ *what you (want to) listen to/read/watch.*
- ✓ *why it interests you.*
- ✓ *how easy/difficult you find it*
- ✓ *the content (what is the film/series/book about / What does the YouTube star tell you about?)*

Have fun!
